Professional Summary

NEBOSH-certified Safety Officer with 5+ years' experience in construction and infrastructure projects. Experienced in risk assessment, hazard identification, and incident investigation. Leveraging a Computer Science degree, I develop digital solutions to improve safety reporting, reduce manual documentation, and enhance workplace safety monitoring.

Core Competencies

- Risk Assessment & Hazard Identification
- Permit to Work (PTW) Management
- Incident Investigation & Root Cause Analysis
- Work at Height & Confined Space Safety
- Digital Safety Systems & Automation
- Safety Data Analysis & Reporting
- Fire Prevention & Emergency Response
- PPE Compliance & Site Safety Monitoring
- Safety Training & Toolbox Talks
- HSE Documentation & Reporting
- OSHA & NEBOSH Standards Compliance
- Process Improvement using Technology

Education

- **Bachelor's Degree in Computer Science**
  Federal Urdu University of Arts, Science & Technology, Karachi | 2024
  Focus: Studied software development, database management, programming languages, and system design. Developed practical skills in software development, technical documentation, data management, and digital problem-solving.
- **Matriculation (Science Group)**
  BISE Malakand, Khyber Pakhtunkhwa | 2016
  Focus: General Science, arts, Mathematics, and Scientific Principles
- **Intermediate (FSc./ Computer Science)**
  BISE Malakand, Khyber Pakhtunkhwa | 2018
  Focus: Computer Science Fundamentals, Documentation, and Database Concepts

Key Achievements

Safety Achievements

- Conducted regular site inspections and implemented corrective actions to minimize workplace hazards
- Ensured proper implementation of Permit to Work (PTW) system for high-risk activities
- Delivered safety trainings and toolbox talks to improve worker awareness and compliance

Digital / Technical Achievements

- Developed a Safety Management System (software) as a Final Year Project to digitize safety records and reduce manual documentation. Click **here** to see the project.
- Improved data organization and reporting efficiency through structured digital tracking
- Applied Computer Science knowledge to enhance safety monitoring and documentation processes
- Project was appreciated by supervisors and peers for its practical value and real-world application

Professional Certifications

Health, Safety & Environment

- NEBOSH International General Certificate (IGC)
- OSHA 30 hours
- Fire Safety Awareness
- Working at Height Safety
- Emergency First Aid at Work
- OSHA Construction Safety & health
- Risk Assessment Certification
- Supervision and Leadership

Technical Certificates

- MS Office (excel, word, PowerPoint, etc.)
- English Proficiency certificate
- Website development

Work Experience (5+ Years)

Safety Officer
Al-Mashrik Contracting Company, KSA
May 2025 – Aug 2026
Project: Road and Infrastructure Development

HSE Officer
Sinohydro Corporation, Saudi Arabia
July 2024 – March 2025
Project: Water Transmission Pipeline

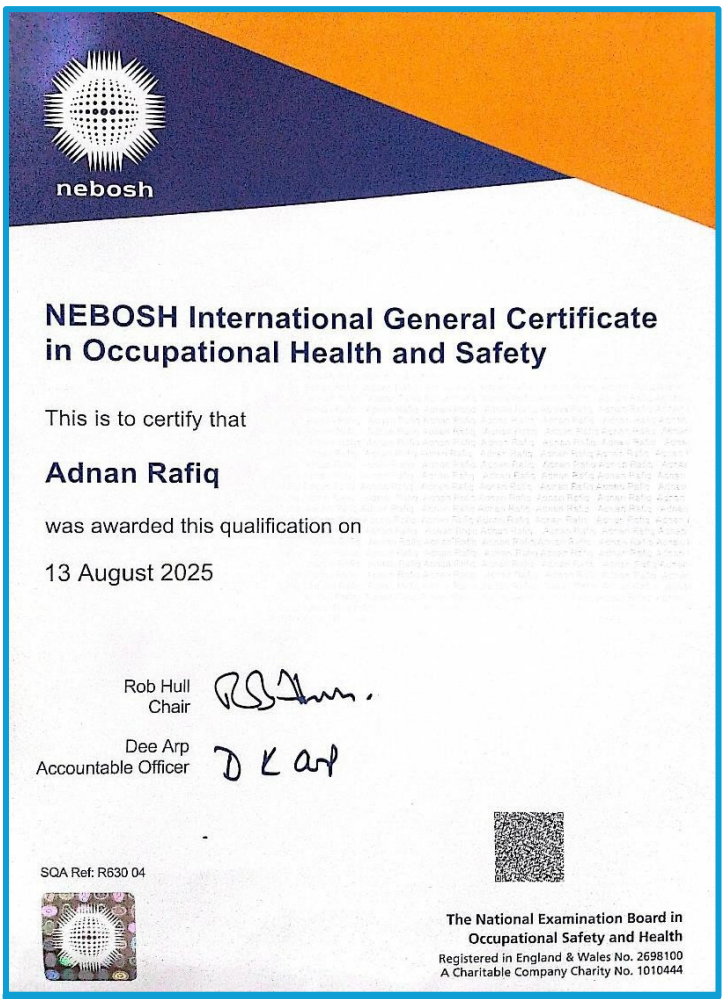

Safety Officer
Maqbool JV (CR21G & Calsons) – Pakistan April 2021 – July 2024
Project: Sustainable (BRT) Reach III – Aman Chowk to Karkhano

Job Responsibilities

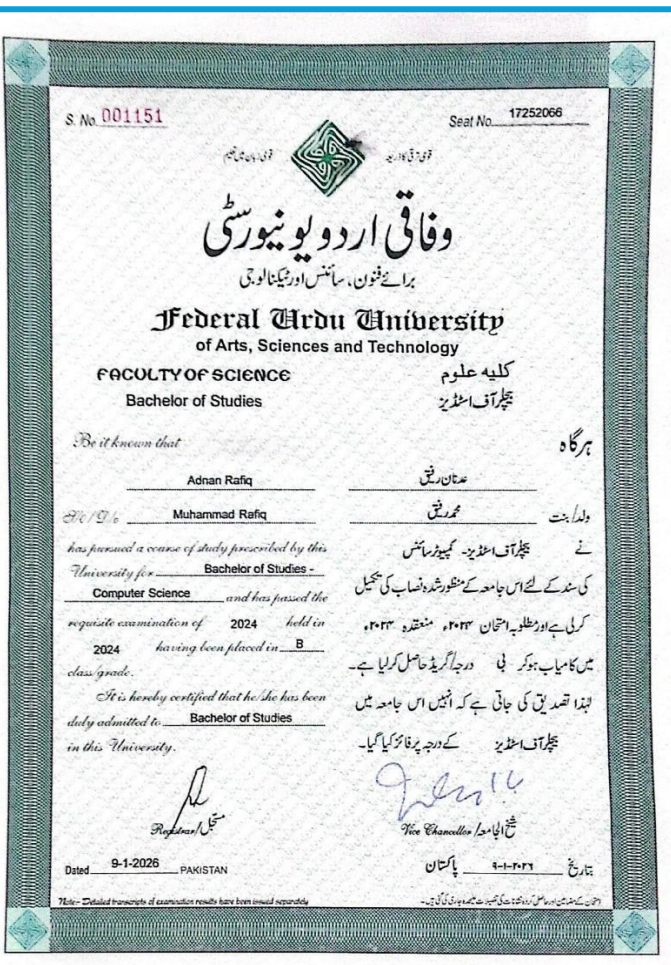

- Conduct daily site inspections, identify hazards, and ensure timely corrective actions.
- Perform risk assessments and hazard identification for construction and operational activities.
- Manage Permit to Work systems for high-risk and hazardous work activities.
- Deliver safety inductions, toolbox talks, and HSE awareness training programs.
- Investigate incidents, accidents, and near misses, recommending effective corrective actions.
- Ensure compliance with HSE policies, client requirements, and applicable regulations.
- Inspect firefighting equipment, emergency facilities, and first-aid arrangements.
- Monitor PPE compliance and proper use of required safety equipment.
- Prepare HSE documentation, inspection reports, risk assessments, and safety statistics.
- Participate in HSE meetings and follow up on agreed action plans.
- Monitor construction activities and enforce approved safety procedures and work practices.
- Inspect heavy equipment and verify inspection and certification records.
- Coordinate emergency drills, evacuations, and rescue preparedness activities.
- Promote a positive safety culture among employees, supervisors, and subcontractors.
- Support implementation and continuous improvement of the HSE Management System.
